CHILDREN'S "SHOWPIECE STYLED" FRAMES

What do you look for in a child's frame? Youthful appeal? Superb fitting qualities? Long-time wearability? AO's outstanding new selection of children's frames gives you all these features and more.

AO designs youngsters' frames so they stay comfortable and keep their fit as the child grows older. How? Through scientific selection of bridge size, nasal pad design and eyeshape styling . . . and through superior craftsmanship. Every AO child's frame has the built-in durability of the best plastics, too. And AO's exclusive Red Dot construction holds temples in place *indefinitely*.

So for the finest fit for youthful features, now and in the future, prescribe an AO frame with complete confidence.

SPECIAL "SHOWPIECE STYLED" FRAMES

Here are fine American Optical frames for special uses and tastes. The new half-eye Near-Vue, the conservative Pennington, and the traditional semi-rimless styles are suitable for both men and women.

Also included in the AO special line is the exclusive All-American athletic frame which offers the wearer maximum eye protection while engaged in sports. In addition, AO has smartly styled frames especially designed for cataract lenses.

The same outstanding craftsmanship that distinguishes all American Optical frames is clearly evident in these special styles. Each is backed, of course, by American Optical Company's unparalleled reputation for quality.

CROSSLEY RIMWAY

34EF6774 SEMI-RIMLESS

RED DOT®

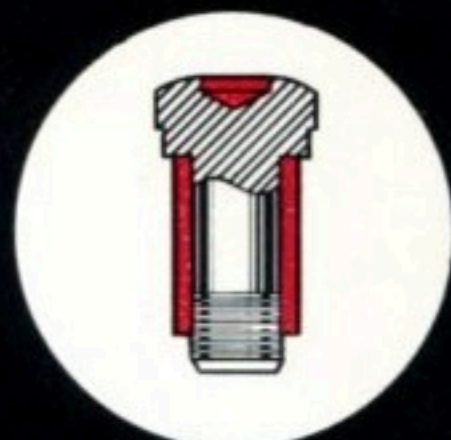

Keeps AO Frames Permanently Tight!

Why put up with "temple drop" any longer? AO's exclusive Reddy Red Dot locks temples tightly in place, once and for all. No more lost screws. No more loose temples that need repeated adjustments.

By its unique design, the superior new Red Dot hinge device has eliminated an annoying adjustment problem. Small wonder most members of the eye care professions prefer it to any other temple hinge construction.

Almost all current AO frames — and *only* AO frames — are Red Dot. And all future AO frames will have this big plus feature . . . look for it on the frames you order.

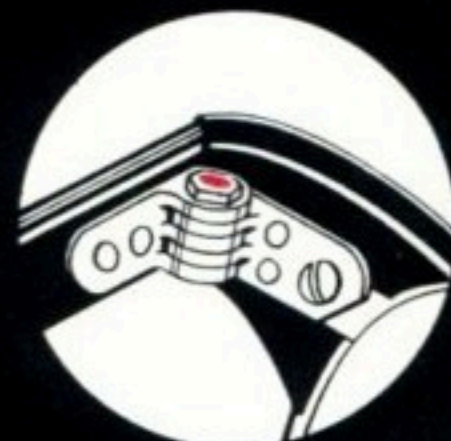

Reddy **RED DOT**
won't come loose . . . can't get lost.

Reddy RED DOT — A nylon sleeve encasing a hexhead bolt.

Bolt and sleeve are inserted together . . . then tightened.

Nylon sleeve compresses against inside of hinge barrel for permanent tightness.

RED DOT ACCESSORIES

Red Dot Aligning Pin — Valuable time-saver for lining up hinge barrels. Fits holes exactly.

Red Dot Wrench — Fits over hexhead bolt, won't slip. Tightens to exact tension desired. Also holds screwdriver blade.

Red Dot Extractor — Handy for extracting nylon sleeve after bolt is removed when changing temples.

EXCITING NEW WAY TO SHOW YOUR AO FRAME SELECTION

FUL-VUE FRAME FITTING BOARD

* **MAKES FITTING EASIER**

* **ELIMINATES SAMPLE BOX CLUTTER**

Here's a brand-new idea in dispensing aids. Attractive four-paneled board shows off your AO frames to best advantage, keeps them conveniently at hand for ease in fitting. No sample box clutter or confusion. New panels available as latest AO fashion frames appear. Just remove old panels and slip new ones in fitting board. Your selection always appealing, up-to-date, and at your fingertips. Decorative on wall or desk. Get this useful, attractive addition to your fitting room soon.

YOUR AO REPRESENTATIVE WILL GLADLY PRESENT YOU ONE WITH OUR COMPLIMENTS. ASK HIM NOW.
